

Compuprint

TECHNICAL SPECIFICATIONS

Printing Technology	18 or 24 pins dot matrix
Printing Speed	From 720 cps to 1300 cps @10cpi
Resolution	360 x 360 dpi
Line Length	136 columns
Emulations	IBM Proprinter- Epson Esc LQ / FX - ANSI
Throughput (ISO/IEC 10561)	From 600 to 860 pph (pages per hour)
Special Functions	Automatic Paper Path Alternation Auto Gap Adjustment (AGA) Zero Tear Off Automatic Paper Parking Up to 4 user configurations
Interfaces	Parallel - Serial - USB Parallel - LAN or IPDS/LAN
Document Handling	Continuous forms, labels
Copies	Original + 7 copies
Print Head Life	800 Million Characters
Ribbon Life	15 or 25 Million Characters
Dimensions	670 (W) x 320 (H) x 390 (D) mm
Weight	< 21 Kg
Noise	< 54 dbA

Compuprint

The Compuprint 9000 family is designed to meet the most demanding requirements of today's applications while offering unmatched performance in Windows and graphic printing environments. The ideal solution for mission critical requirements, with the full flexibility to support a variety of forms and documents.

Value and Features

- From 720 cps up to 1300 cps
- 18 and 24 pins print heads
- Up to 7 part forms
- Straight paper path
- Patented front dual tractor option for heavy work environments
- Auto forms thickness sensing and adjustment
- Auto switching paper paths
- MTBF 20.000 hours @ 25% duty cycle
- Long life print heads at 800 Mchrs

COMPUPRINT 9000 FAMILY

Compuprint 9065 PRTN965 PRTN965N	24 pins - 720 cps @10cpi – 1+7 copies One tractor (Fanfold) Optional second tractor and pedestal Interface configurations: - Parallel / Serial / USB - Parallel / LAN
Compuprint 9080 PRTN980 PRTN980N	24 pins - 900 cps @10cpi – 1+7 copies One tractor (Fanfold) Optional second tractor and pedestal Interface configurations: - Parallel / Serial / USB - Parallel / LAN
Compuprint 9300 PRTN9300 PRTN9300N PRTN9300I	18 pins - 1300 cps @10cpi – 1+7 copies One tractor (Fanfold) Optional second tractor and pedestal Interface configurations: - Parallel / Serial / USB - Parallel / LAN - Parallel / IPDS-LAN

Compuprint 9000 series at a glance

A LEADING HEDGE SERIES FOR TODAY AND TOMORROW

Compuprint 9000 series integrate the latest technology and innovation based on more than 30 years of Compuprint leadership in the serial printer technology. It represent the preferred choice for business and industrial printing applications requiring thousand and thousand pages per month workload, providing the best investment for many years of worry free service.

FAST, FLEXIBLE AND RELIABLE

Compuprint 9000 series are built on state of the art and innovative functionalities. With all configurations available these models cover all the most common requirements. All models provide superior performance in traditional impact applications and high levels of flexibility and automation for the user with a unique paper path for superb reliability.

FOR A BROAD RANGE OF CONNECTIVITY AND PRINTING

A wide set of character sets, fonts, barcodes, and protocols allow the **Compuprint 9000 series** to connect in most contemporary environments. The unique and optimized choice of quality and speed graphics mode provide the ideal solution for industrial requirements for printing macro characters barcodes and pre-printed forms. Arabic, Thai, Farsi, and other special sets are also available.

Standard connectivity includes Parallel, Serial and USB ports, or Parallel and Ethernet LAN with network management software. The best industry's IPDS over LAN is also available on 9300 model.
