* You may replace any elder board for a SP40plus model by any new one.
 You have only to pay attention that each number group requires its special firmware.
 For example, a LAN-board SP-BRD02432 made for number group RHS-T12 won't accept firmware made for number group RHS-S81. This firmware you can only use for the other two LAN-boards SP-BRD01031R05 and SP-BRD01881R04
