

TECHNICAL SPECIFICATIONS

Printing Technology	24 pins dot matrix
Printing Speed	1300 cps @10cpi - 1400 cps@15cpi
Resolution	360 x 360 dpi
Line Length	136 columns
Emulations	IBM Proprinter– Epson Esc LQ / FX - ANSI
Throughput (ISO/IEC 10561)	860 pph (pages per hour)
Special Functions	Automatic Paper Path Alternation Auto Gap Adjustment (AGA) Zero Tear Off Automatic Paper Parking Up to 4 user configurations
Interfaces	Parallel – Serial – USB (PRTN103) Parallel – LAN (PRTN103N)
Document Handling	Continuos forms, labels
Copies	Original + 7 copies
Print Head Life	800 Million Characters
Ribbon Life	25 Million Characters
Dimensions	720 (W) x 350 (H) x 400 (D) mm
Weight	33 Kg (without pedestal)
Noise	< 54 dbA

10300

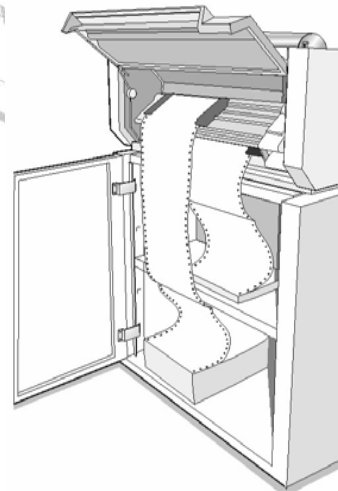

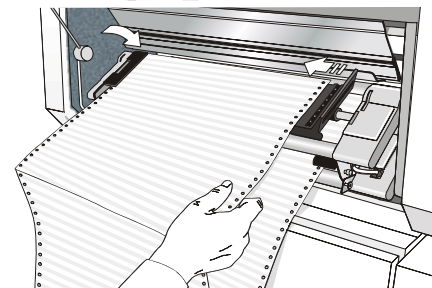

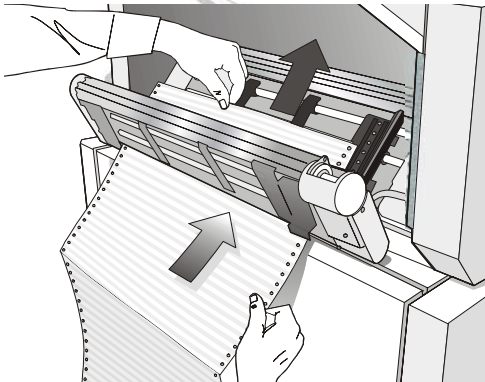

HIGH END MATRIX PRINTER

Compuprint

The Compuprint 10300 combines the performance and ruggedness of a line printer, while offering the paper flexibility and the superior print quality of a 24 pin serial matrix printer. It provides an excellent solution for mission critical printing needs, even in harsh working environments, comparable with the low end line printers.

Value and Features

- Long life 24 pin printhead technology
- Outstanding performance up to 860 pages/hour
- Supersedes 500 lpm line printer in many applications
- Superior performance in graphics printing
- Rugged and robust design
- Dual front straight paper path and zero-tear-off
- 8 copies capability
- Open for connectivity with integrated LAN
- Wide range of barcodes and macro characters

Compuprint

Compuprint 10300 at a glance

A LEADING HEDGE SERIES FOR TODAY AND TOMORROW

Compuprint 10300 integrates the latest technology and innovation based on more than 30 years of Compuprint leadership in the serial printer technology. At the top of the Compuprint range, this model is the fastest printing serial impact device available in the world, in a ruggedised mechanism to support the critical application needs of the industry and business organizations.

FAST, FLEXIBLE AND RELIABLE

Compuprint 10300 delivers the performance of a line printers in term of speed and reliability in legacy applications, while providing unmatched capabilities in today's growing graphic and Windows environments. A unique paper handling path for two simultaneous forms and zero-tear-off capability make this printer the ideal solution for high demanding, mission critical requirements, yet flexible to support a variety of forms and documents.

FOR A BROAD RANGE OF CONNECTIVITY AND PRINTING

A wide set of interfaces and protocols allow the **Compuprint 10300** to connect in most contemporary environments, while providing security for future migration. With its fully integrated network capability, including network SW management, and its unique and optimized choices for quality and speed in graphic mode, Compuprint 10300 provide an ideal, innovative solution for industrial printing requirements of macro characters, barcodes and pre-printed forms
